## SUMMARY

Motivated cybersecurity and cloud technology enthusiast with strong analytical and problem-solving skills, seeking a dynamic role to apply expertise in securing and optimizing cloud environments, including network management and security.

## EDUCATION

### Bachelor's Degree in Information Technology

SNS College of Engineering

2021 - Present Coimbatore, TN

## EXPERIENCE

### DevOps Engineer Intern

Techsnapie Solutions

08/2023 - Present Coimbatore, TN

Collaborations in the major projects

- Orchestrated the setup, configuration, and ongoing maintenance of AWS cloud infrastructure.
- Implemented optimizations in resource allocation to improve efficiency.
- Successfully reduced costs by 20% through these optimization efforts.
- Collaborated closely with senior cloud engineers to ensure alignment and effectiveness.
- Streamlined processes for better efficiency and performance.
- Conducted regular reviews and updates to maintain optimal performance levels.

## PROJECTS

### Career Connect

github.com/siva-rithish/CareerCommit

Led development of a dynamic career site with AI mock interviews, content management, and real-time job notifications, revolutionizing user journeys.

- The project boosted user engagement and job application success rates, while also enhancing recruitment efficiency through streamlined processes and data-driven insights.

## CERTIFICATION

### AWS CCP

Completed on Udemy.

### Networking Basics

Cisco on Networking Academy

### Docker Essentials

IBM on Cognitiveclass.ai

### Cybersecurity Analyst Job Simulation

TATA on Forage
