

RITHISHKAR G

Coimbatore, India | [LinkedIn](#) | [Email](#) | [GitHub](#) | +91 6381040334

OBJECTIVE

As a proactive student with a strong interest in cloud technology and cybersecurity, I am committed to pursuing a fulfilling career in this continually changing field.

EDUCATION

SNS College of Engineering

Bachelor of Technology, Information Technology

Area of Interest : DevOps, Cyber Security

Graduation: 2025

CERTIFICATIONS

AWS Certified Cloud Practitioner (Udemy)

Cyber Security Fundamentals (IBM)

Achieved Dec 2023

Achieved Sep 2022

TECHNICAL PROJECTS

AWS Serverless Web Application

- Developed a serverless web application utilizing AWS Lambda, DynamoDB, API Gateway, and Amplify.

Ransomware on S3 - Security Event Simulation and Detection

- Employed Assisted Log Enabler & Security Analytics Bootstrap to simulate ransomware-like events in AWS CloudShell. Investigated data destruction & exfiltration in Amazon S3. Ideal for AWS personnel.

User Profile App

- Created and deployed a Dockerized User Profile App, showcasing expertise in scalable and standardized web application architecture.

Career Connect

- Led development of a dynamic career site with AI mock interviews, content management, and real-time job notifications, revolutionizing user journeys.*
